1) Boggs Face Nation 11/27/66

"Only thing I've seen" that makes any difference is X rays. He did not say what he had or had not seen or read. Making comments "for gain, for profit, for notoriety" - dissociates himself from.

Single bullet - ~~[illegible]~~ said evidence is "very persuasive."

Read - Gov Herman, Duke Howard Wells, Higgin (?) Schlomsber?

2) It [illegible] to report "it is still very well established that all the shots came from the rear"

Critics do not prove there was a second assassin of the kind [illegible] with [illegible]

"idea that you had to be an expert marksman is one that I ~~[illegible]~~ ~~[illegible]~~ reject,"

"many members of the Commission, I among [illegible] said there never attended every single session
who came to [illegible] often beginning [illegible] not much - false.

will not oppose new investigation

[illegible] on "haven't seen a real anything", etc

3) single-bullet – would not say he dissented on it but acknowledged dissent. Boggs didn't answer any picture question directly & unequivocally & at least 2 of the panel knew his answers were wrong & not responsive.
